

UNDER THE SEA

- Key Stage 1 (Ages 4-6).
- Curriculum links: Living Things.
- Explore what lives under the sea using a range of interactive games to enhance children's knowledge of underwater animals.
- The lesson includes interactive hands on activities, animal encounters, and a question and answer session.
- Lesson Objectives: To discover the type of animals that inhabit our seas, where they live and what they eat.
- Learning Outcomes: To understand the differing characteristics and habitats of animals that live under our seas.
